Manageing resources is requires time contacting consuming several people and constant follow ups. has to contact the assigned personnel to manage maintainence tasks. Says Uses the Does

Of how much time is wasted in refilling and maintaining resources.

> Of getting work done without having to take multiple follow ups.

Uses the registry system to get the resources.

Takes constant follow up till item is repaired / delivered / replaced. Physically goes and contacts the person in between classes to list items needed. Frustrated that they have to leave teaching work to go check for item availability.

Feels

Feels irritated when they have to take constant follow up.
